Dear Students,
We all are committed for your best performance in JEE Advanced Examination 2024.

IMPORTANT TIPS -

1. During this revision plan we will provide you regular classes in each subject as earlier, keep in contact with your subjectwise faculties for discussion of papers, provided assignments and doubts.
2. If time permits and you have a spare time, you can make extra efforts to solve :
   (i) Previous JEE Advanced papers in 3Hrs time limit, which are available in Test & Report section of ALLENDIGITAL portal.
   (ii) You can solve full syllabus papers conducted in Allen (even subjectwise as per requirement).
   (iii) Analyse your mistakes in your all the previous papers and solve that problems again, all the papers are available in Test & Report (Chance) section of ALLENDIGITAL account.
3. Don't search for extra material it will only distract you.
4. Always feel positive and motivated irrespective of performance as consistent effort bring desired result.

	MATHEMATICS
1	You will be given Revision Assignments during guided revision plan.
2	Students are strictly advised to attempt Revision Assignments in day time only.
3	Students who are not confident in theory should revise class notes properly and attempt questions from Exercise JEE Advanced of sheet.
4	Students confident in theory can revise formula book and attempt questions from Exercises O-2, JEE Advanced from sheet .
5	Students who already completed Exercises O-2, JEE Advanced from sheet are advised to attempt previous years JEE Advanced test papers at ALLENDIGITAL.

	PHYSICS
1	**What to revise ?** Topicwise guided revision assignments will be provided which are also available on your ALLENDIGITAL account. These guided revisions are to be completed till JEE Advanced Exam. In addition to these guided revisions last year questions of JEE Main and JEE Advanced Exams should also be attempted.
2	**What to do after tests ?** Analyse the mistakes made in test papers and give extra time on these topics in revision.
3	Avoid distractions and stay in contact with your teachers for proper guidance.

	CHEMISTRY
PHYSICAL CHEMISTRY :	
1	You will be given guided revision assignments according to schedule. Attempt assignments after proper revision of theory.
2	Attempt in time limit of 45 minutes & then calculate your marks.
3	You can ask your faculty to clarify any weak concepts during scheduled doubt classes.
4	For any weak topic you can solve Exercises O2, JA of sheet for practice.
INORGANIC CHEMISTRY :	
1	Follow systematic revision planning as per Guided Revision Plan.
2	We will provide topicwise revision class test (total 14) during Guided Revision Plan.
3	Reattempt JEE Advanced Exercises of all the topics, revise your Class notes carefully & reading of NCERT for block Chemistry is beneficial.
4	Attempt Score Advanced tests very carefully and analysis your mistakes and discuss with your teacher. It is very important for your result improvement.
ORGANIC CHEMISTRY :	
1	Follow GRP plan and solve Roadmaps(01 to 25) sincerely.
2	Refer NCERT for Biomolecules.
3	Don't go through extra papers of any other institute and also don't try to go through any new concepts.
4	Revise class notes particularly memory based topics.
